BREAKING NEWS: Former CA-30 Congressional Candidate CJ Berina Endorses Shervin Aazami for U.S. Congress in California's 30th District

Los Angeles, CA -- Today, 2020 candidate for U.S. Congress in California's 30th Congressional District, Courtney "CJ" Berina, announced his endorsement of Shervin Aazami's people-powered campaign to unseat corporate incumbent Rep. Brad Sherman. With the announcement of 2018 Congressional candidate Jon Pelzer's endorsement in early September, Aazami's campaign has now been endorsed by both of this district's most recent progressive primary challengers to Rep. Sherman.

Progressives recognize the growing momentum of the Shervin Aazami campaign and realize that he is CA-30's best chance to elect a true advocate to the House of Representatives to deliver for working families in our district and fight for progressive priorities like single-payer Medicare-For-All, climate justice and a Green New Deal, divesting from the U.S. war machine, and much more. Here's what CJ Berina had to say:

"Shervin Aazami is the bold progressive change that we need to see representing the San Fernando Valley in Congress. Brad Sherman has been in Congress for way too long without making any significant change. Brad Sherman has continually failed the constituents he has taken an oath to represent. Now is the time for progressive policies that Shervin will fight for in Washington. From Housing for All, the Green New Deal, Medicare for All, to a 21st century education system, Shervin is a great candidate that you can count on to fight for these progressive policies. I am proud to endorse Shervin Aazami for Congress in California's 30th District. I can't wait to volunteer and cast my vote for Shervin Aazami for Congress in 2022."

###

Shervin Aazami is a new dad, husband, immigrant, public health advocate, and former national indigenous healthcare non-profit Legislative Director, who is running for Congress in California's 30th District to be the first progressive Iranian-American to serve in the House of Representatives. This is more than a political campaign – this is a people-powered, progressive movement.
